Immersion™ RV60 LED System

GE's Immersion™ RV60 LED lighting system offers grocery and convenience store owners the next generation of energy-efficient refrigerated display lighting to help lower energy costs while enhancing the visual appeal of merchandise.

Features:

- Replaces traditional T12HO fluorescents
- Uses 13 to 22 percent less energy than previous generations of vertical display lighting
- Up to 50,000 hour lifetime
- Reduced relamping costs
- GE Lighting's specially designed optic lens uses ultra-efficient LED technology to spread light evenly across food packages
- No IR, UV or mercury
- GEquality/reliability
- 5 year limited warranty

Specs

- Colors: 3500K, 4000K, 5000K
- Sizes: 48", 60", 67"

Applications

- Vertical refrigerated display cases
- Supermarket, grocery, floral
- Convenience stores
- Petroleum stations
